Full Stack Software Engineer

Full Stack Engineer with 5+ years of experience building scalable web applications used by thousands of users in enterprise environments. Specialized in clean architecture, SSR/SSG, and API integrations (REST & GraphQL). Skilled in automated testing, Dockerized backends, and mentoring developers within Agile teams.

Work Experience

BCD Meetings & Events | 2022 – PRESENT

Full Stack Engineer

- Built scalable front-end solutions in React + TypeScript for high-volume enterprise clients.
- Developed SSR/SSG apps using Next.js, cutting load times by 40%, enhancing CX.
- Integrated complex REST & GraphQL APIs for seamless frontend-backend data flows, simulating CRM-style integrations.
- Optimized PostgreSQL queries and schema designs to reduce key endpoint latency by 25%.
- Led automated CI/CD pipelines with Docker and GitHub Actions to ensure stable deployments.
- Translated UI/UX designs into responsive, accessible, and polished components across devices.
- Worked cross-functionally with design, QA, backend, and devops teams in Agile sprints.

Freelance 2024 – Present

Team Lead & Product Engineer

- Led a remote team to deliver MVPs aligned with CRM use cases and customer validation in under 8 weeks.
- Designed GraphQL APIs and Dockerized backends using Hasura & Prisma, reducing deployment time by 40%.
- Worked with clients to translate business workflows into data schemas, integrations, and APIs.
- Mentored junior developers on API design standards, integration patterns, and modular architecture.

Skills

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5/CSS3

Backend: Node.js, Express, REST, GraphQL, Prisma, Hasura

Databases: PostgreSQL, MySQL, MongoDB

DevOps & Tools: Docker, GitHub Actions, Vercel, CI/CD

Testing: Jest, Cypress, Playwright

Hackathons & Public Speaking

Starknet Ignite Hackathon | May 2025

- Mentored dev teams at Central America's largest hackathon, shaping Web3 and AI solutions from concept to prototype.
- Advised on Starknet contracts, tooling, and architecture to accelerate delivery and technical quality.

Certifications & Learning

- Salesforce Platform Developer I (in progress)
- Ongoing learning: Salesforce DevOps with GitHub Actions
- B.S. in Software Engineering – UNED
- Advanced English (C2) – Centro Cultural Norteamericano
